Welcome to Triangle Fastener Corporation

Since 1977, Triangle Fastener Corporation has supplied the construction industry with the most comprehensive lines of standard and specialty fastening systems solutions. We are committed to offering the latest fastening systems technologies that provide high performance and low life-cycle costs.

But that's only part of the story...

We offer local inventories and services that meet your performance and quality demands. Our hands-on approach to servicing your needs guarantees that you get the attention you deserve. We can also custom design a product to meet your specific requirement and offer technical assistance on every product we provide.
