*SAFETY DATA SHEET*

Report #: SDS110916A

Product: PIPE-MASTER® Pipe Flashing

---

TRIANGLE FASTENER CORPORATION (TFC) has, based on the current requirements of the occupational safety and health administration code 26CFR; Section **1910.1200(b)(6)(v)**, determined that our PIPE-MASTER® products are considered “Articles” defined below.

Definition: *Article* means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

Because PIPE-MASTER® is considered an “article” defined by OSHA, a safety data sheet is not required.
